

Kyocera Precision Tools Safety Policy

As part of the Kyocera family, our Philosophy is “Respect the Divine and Love People”. Devoted to safety, Kyocera Precision Tools Inc. is dedicated to creating a safe and secure working environment for all employees, contractors, and guests that visit or work at Kyocera Precision Tools.

Kyocera Precision Tools is committed to the following safety policy:

1. Comply with all safety and health regulations and requirements set forth by Kyocera Precision Tools management, Kyocera Corporation, Federal, State, and local governments, for the safety of all employees, contractors, and guests at KPTI.
2. Establish an organizational structure with clear responsibility of each function in order to facilitate an effective safety program with the commitment towards the continual improvement of the OHS management system.
3. Perform routine safety inspection and risk analysis in order to identify potential risks and prevent future accidents by providing engineering solutions and improved work practices.
4. Provide necessary safety training and PPE (personal protective equipment) to employees, and ensure all employees follow the company’s safety policies and guidelines as a condition of continued employment.
5. KPTI’s Safety Policy is available to the public, through the company’s website.
